THE IDEAL WRAPPING FILM FOR ALL BALERS

This high-performance stretch film for bale wrapping allows the efficient handling of waste management resources. Our proprietary technology offers all municipal waste management areas the ideal range to enable the environmentally responsible treatment of municipal waste and fragmented waste materials. Choose the ECOFLEX RR with 30% recycled content to optimise your carbon footprint. Clean, safe and odorless.

Ideal solution for wrapping waste bales. You will benefit from: Efficient storage, cost-effective handling and safe transport.

FEATURES:

-  Suitable for all waste balers - for round and square bales
-  100% recyclable and environmentally friendly LLDPE film
-  Serves as a barrier against moisture and odors
-  Optimal mechanical, puncture and tear resistance
-  Best protection against dust, compact bale stability
-  Significant reduction of environmental impact
-  Optimal storage options under different conditions, avoiding static charge and algae formation
-  Excellent cost-saving opportunities
-  Proven on millions of bales
-  If bales are destined for incineration, ECOFLEX high calorific value can contribute to energy production

FINISHING:

-  Colours available in black, white and green
-  With UV protection on request

CHARACTERISTICS	ELASTIC
PRODUCT	ECOFLEX
FILM TYPE	Standard
PERFORMANCE	High performance material with excellent adhesion
 MANUNATURE® RR (30% recycled content)	
WIDTH (mm)	500 / 750
THICKNESS (µm)	25 - 28
PRESTRETCH (%)	70
PUNCTURE RESISTANCE	

Manupackaging, formerly Manuli Stretch, is a sustainable developer and manufacturer of innovative transport packaging in super-power film quality. As the inventor of stretch film in Europe, we are your reliable partner for optimal load securing.

Manupackaging Deutschland GmbH is certified according to:  ISO 9001
ISO 50001
ISO 14001

A natural passion for protection. This is our pledge to you.
